

Supply Chain & Logistics

Skills represents the achievements of learners who have navigated their career journey successfully.

What is Supply Chain & Logistics?

- Supply chain management involves coordinating activities that ensure products or services move efficiently from raw material suppliers to manufacturers, distributors, and retailers, and ultimately to consumers.
- Logistics focuses specifically on moving, storing, and distributing goods and services. It includes transportation, warehousing, inventory management, packaging, and information management.
- Logistics aims to optimize the flow of materials and products from the point of origin to the point of consumption, ensuring timely delivery while minimizing costs.
